

Web and Desktop Applications for Manfact

The image displays three overlapping screenshots of the ManFact software interface. The top window, titled 'Inventory Query and Reservation Update', shows search criteria for Part# XTR500, Plant (All Plants), and Warehouse (All Warehouses). The middle window shows a table of search results for XTR500, including columns for Whse, Location, Part Number, Description, Lot Number, Lot Expires, Lot Hold, On Hand, Available, On Order, Allocated, Reserved, Back Order, and Future. The bottom window, titled 'Reserve Inventory', shows a table of reservations for XTR500, including columns for Delete, Part Number, Description, Cust Id, Cust Name, Doc Type, Doc Id, Location, Project#, Lot#, Demand Type, Demand Date, Demand Qty, Priority, and Entered By. A 'Reserve Selected Items' button is visible in the bottom right of this window.

- Locate Existing Inventory Using a Variety of Search Criteria
- Create Manual Reservations to Earmark Inventory for Special Projects, Without Creating a Work Order or Sales Order
- View All Reservations for a Part Number, Whether Manual or System Generated
